THE FOLLOWING CLASS DEVIATION SUPERSEDES ANY PRIOR VERSION OF DFARS CLAUSE 252.204-7012. 252.204-7012 SAFEGUARDING COVERED DEFENSE INFORMATION AND CYBER INCIDENT REPORTING (MAY 2024) (DEVIATION 2024-00013 REVISION 1) (a) Definitions. As used in this clause Adequate security means protective measures that are commensurate with the consequences and probability of loss, misuse, or unauthorized access to, or modification of information. Compromise means disclosure of information to unauthorized persons, or a violation of the security policy of a system, in which unauthorized intentional or unintentional disclosure, modification, destruction, or loss of an object, or the copying of information to unauthorized media may have occurred. Contractor attributional/proprietary information means information that identifies the contractor(s), whether directly or indirectly, by the grouping of information that can be traced back to the contractor(s) (e.g., program description, facility locations), personally identifiable information, as well as trade secrets, commercial or financial information, or other commercially sensitive information that is not customarily shared outside of the company. Controlled technical information means technical information with military or space application that is subject to controls on the access, use, reproduction, modification, performance, display, release, disclosure, or dissemination. Controlled technical information would meet the criteria, if disseminated, for distribution statements B through F using the criteria set forth in DoD Instruction 5230.24, Distribution Statements on Technical Documents. The term does not include information that is lawfully publicly available without restrictions. Covered contractor information system means an unclassified information system that is owned, or operated by or for, a contractor and that processes, stores, or transmits covered defense information. Covered defense information means unclassified controlled technical information or other information, as described in the Registry at http://www.archives.gov/cui/registry/category-list.html, that requires safeguarding or dissemination controls pursuant to and consistent with law, regulations, and Governmentwide policies, and is (1) Marked or otherwise identified in the contract, task order, or delivery order and provided to the contractor by or on behalf of DoD in support of the performance of the contract; or (2) Collected, developed, received, transmitted, used, or stored by or on behalf of the contractor in support of the performance of the contract. Cyber incident means actions taken through the use of computer networks that result in a compromise or an actual or potentially adverse effect on an information system and/or the information residing therein. Forensic analysis means the practice of gathering, retaining, and analyzing computer-related data for investigative purposes in a manner that maintains the integrity of the data. Information system means a discrete set of information resources organized for the collection, processing, maintenance, use, sharing, dissemination, or disposition of information. Malicious software means computer software or firmware intended to perform an unauthorized process that will have adverse impact on the confidentiality, integrity, or availability of an information system. This definition includes a virus, worm, Trojan horse, or other code-based entity that infects a host, as well as spyware and some forms of adware. Media means physical devices or writing surfaces including, but is not limited to, magnetic tapes, optical disks, magnetic disks, large-scale integration memory chips, and printouts onto which covered defense information is recorded, stored, or printed within a covered contractor information system. Operationally critical support means supplies or services designated by the Government as critical for airlift, sealift, intermodal transportation services, or logistical support that is essential to the mobilization, deployment, or sustainment of the Armed Forces in a contingency operation. Rapidly report means within 72 hours of discovery of any cyber incident. Technical information means technical data or computer software, as those terms are defined in the clause at DFARS 252.227-7013, Rights in Technical Data Other Than Commercial Products and Commercial Services, regardless of whether or not the clause is incorporated in this solicitation or contract. Examples of technical information include research and engineering data, engineering drawings, and associated lists, specifications, standards, process sheets, manuals, technical reports, technical orders, catalog-item identifications, data sets, studies and analyses and related information, and computer software executable code and source code. (b) Adequate security. The Contractor shall provide adequate security on all covered contractor information systems. To provide adequate security, the Contractor shall implement, at a minimum, the following information security protections: (1) For covered contractor information systems that are part of an Information Technology (IT) service or system operated on behalf of the Government, the following security requirements apply: (i) Cloud computing services shall be subject to the security requirements specified in the clause 252.239-7010, Cloud Computing Services, of this contract. (ii) Any other such IT service or system (i.e., other than cloud computing) shall be subject to the security requirements specified elsewhere in this contract. (2) For covered contractor information systems that are not part of an IT service or system operated on behalf of the Government and therefore are not subject to the security requirement specified at paragraph (b)(1) of this clause, the following security requirements apply: (i) Except as provided in paragraph (b)(2)(ii) of this clause, the covered contractor information system shall be subject to the security requirements in National Institute of Standards and Technology (NIST) Special Publication (SP) 800-171, Protecting Controlled Unclassified Information in Nonfederal Information Systems and Organizations, Revision 2 (available via the internet at http://dx.doi.org/10.6028/NIST.SP.800-171). https://nvlpubs.nist.gov/nistpubs/SpecialPublications/NIST.SP.800-171r2.pdf). (ii)(A) The Contractor shall implement NIST SP 800-171, as soon as practical, but not later than December 31, 2017. For all contracts awarded prior to October 1, 2017, the Contractor shall notify the DoD Chief Information Officer (CIO), via email at osd.dibcsia@mail.mil, within 30 days of contract award, of any security requirements specified by NIST SP 800-171 not implemented at the time of contract award. (B) The Contractor shall submit requests to vary from NIST SP 800-171 in writing to the Contracting Officer, for consideration by the DoD CIO. The Contractor need not implement any security requirement adjudicated by an authorized representative of the DoD CIO to be nonapplicable or to have an alternative, but equally effective, security measure that may be implemented in its place. If the DoD CIO has previously adjudicated the contractor's requests indicating that a requirement is not applicable or that an alternative security measure is equally effective, a copy of that approval shall be provided to the Contracting Officer when requesting its recognition under this contract. (D) If the Contractor intends to use an external cloud service provider to store, process, or transmit any covered defense information in performance of this contract, the Contractor shall require and ensure that the cloud service provider meets security requirements equivalent to those established by the Government for the Federal Risk and Authorization Management Program (FedRAMP) Moderate baseline (https://www.fedramp.gov/resources/documents/) (https://www.fedramp.gov/documents-templates/) and that the cloud service provider complies with requirements in paragraphs through (g) of this clause for cyber incident reporting, malicious software, media preservation and protection, access to additional information and equipment necessary for

forensic analysis, and cyber incident damage assessment. (3) Apply other information systems security measures when the Contractor reasonably determines that information systems security measures, in addition to those identified in paragraphs (b)(1) and (2) of this clause, may be required to provide adequate security in a dynamic environment or to accommodate special circumstances (e.g., medical devices) and any individual, isolated, or temporary deficiencies based on an assessed risk or vulnerability. These measures may be addressed in a system security plan. Cyber incident reporting requirement. (1) When the Contractor discovers a cyber incident that affects a covered contractor information system or the covered defense information residing therein, or that affects the contractor's ability to perform the requirements of the contract that are designated as operationally critical support and identified in the contract, the Contractor shall (i) Conduct a review for evidence of compromise of covered defense information, including, but not limited to, identifying compromised computers, servers, specific data, and user accounts. This review shall also include analyzing covered contractor information system(s) that were part of the cyber incident, as well as other information systems on the Contractor's network(s), that may have been accessed as a result of the incident in order to identify compromised covered defense information, or that affect the Contractor's ability to provide operationally critical support; and (ii) Rapidly report cyber incidents to DoD at https://dibnet.dod.mil. (2) Cyber incident report. The cyber incident report shall be treated as information created by or for DoD and shall include, at a minimum, the required elements at https://dibnet.dod.mil. (3) Medium assurance certificate requirement. In order to report cyber incidents in accordance with this clause, the Contractor or subcontractor shall have or acquire a DoD-approved medium assurance certificate to report cyber incidents. For information on obtaining a DoD-approved medium assurance certificate, see https://public.cyber.mil/eca/. (d) Malicious software. When the Contractor or subcontractors discover and isolate malicious software in connection with a reported cyber incident, submit the malicious software to DoD Cyber Crime Center (DC3) in accordance with instructions provided by DC3 or the Contracting Officer. Do not send the malicious software to the Contracting Officer. Media preservation and protection. When a Contractor discovers a cyber incident has occurred, the Contractor shall preserve and protect images of all known affected information systems identified in paragraph (1)(i) of this clause and all relevant monitoring/packet capture data for at least 90 days from the submission of the cyber incident report to allow DoD to request the media or decline interest. (f) Access to additional information or equipment necessary for forensic analysis. Upon request by DoD, the Contractor shall provide DoD with access to additional information equipment that is necessary to conduct a forensic analysis. (g) Cyber incident damage assessment activities. If DoD elects to conduct a damage assessment, the Contracting Officer will request that the Contractor provide all of the damage assessment information gathered in accordance with paragraph of this clause. (h) DoD safeguarding and use of contractor attributional/proprietary information. The Government shall protect against the unauthorized use or release of information obtained from the contractor (or derived from information obtained from the contractor) under this clause that includes contractor attributional/proprietary information, including such information submitted in accordance with paragraph . To the maximum extent practicable, the Contractor shall identify and mark attributional/proprietary information. In making an authorized release of such information, the Government will implement appropriate procedures to minimize the contractor attributional/proprietary information that is included in such authorized release, seeking to include only that information that is necessary for the authorized purpose(s) for which the information is being released. (i) Use and release of contractor attributional/proprietary information not created by or for DoD. Information that is obtained from the contractor (or derived from information obtained from the contractor) under this clause that is not created by or for DoD is authorized to be released outside of DoD (1) To entities with missions that may be affected by such information; (2) To entities that may be called upon to assist in the diagnosis, detection, or mitigation of cyber incidents; (3) To Government entities that conduct counterintelligence or law enforcement investigations; (4) For national security purposes, including cyber situational awareness and defense purposes (including with Defense Industrial Base (DIB) participants in the program at 32 CFR part 236); or (5) To a support services contractor (recipient) that is directly supporting Government activities under a contract that includes the clause at 252.204-7009, Limitations on the Use or Disclosure of Third-Party Contractor Reported Cyber Incident Information. (j) Use and release of contractor attributional/proprietary information created by or for DoD. Information that is obtained from the contractor (or derived from information obtained from the contractor) under this clause that is created by or for DoD (including the information submitted pursuant to paragraph of this clause) is authorized to be used and released outside of DoD for purposes and activities authorized by paragraph (i) of this clause, and for any other lawful Government purpose or activity, subject to all applicable statutory, regulatory, and policy based restrictions on the Government's use and release of such information. (k) The Contractor shall conduct activities under this clause in accordance with applicable laws and regulations on the interception, monitoring, access, use, and disclosure of electronic communications and data. (l) Other safeguarding or reporting requirements. The safeguarding and cyber incident reporting required by this clause in no way abrogates the Contractor's responsibility for other safeguarding or cyber incident reporting pertaining to its unclassified information systems as required by other applicable clauses of this contract, or as a result of other applicable U.S. Government statutory or regulatory requirements. (m) Subcontracts. The Contractor shall (1) Include this clause, including this paragraph (m), in subcontracts, or similar contractual instruments, for operationally critical support, or for which subcontract performance will involve covered defense information, including subcontracts for commercial products or commercial services, without alteration, except to identify the parties. The Contractor shall determine if the information required for subcontractor performance retains its identity as covered defense information and will require protection under this clause, and, if necessary, consult with the Contracting Officer; and (2) Require subcontractors to (i) Notify the prime Contractor (or next higher-tier subcontractor) when submitting a request to vary from a NIST SP 800-171 security requirement to the Contracting Officer, in accordance with paragraph (b)(2)(ii)(B) of this clause; and

(1) Product verification testing (PVT) under this procurement note will only apply when the contracting officer specifically invokes it in writing. The contracting officer may invoke PVT at or after contract award. If the contracting officer invokes PVT at contract award, the contract will explicitly state this testing requirement. If the contracting officer invokes PVT after contract award, the contracting officer shall notify the contractor and the cognizant DCMA ACO. The Government will perform PVT testing at a Government-designated testing laboratory. (2) The contractor shall not ship or deliver any material until it receives notification of the acceptable PVT results, unless the contracting officer directs it to do so in writing. The Government will provide the PVT results to the contractor within 20 business days after receipt at the Government testing facility, unless the Government specifies otherwise in writing. (3) The contractor shall provide and maintain an inspection system acceptable to the Government in accordance with FAR Clause 52.246-2 or 52.246-3; and maintain and make available all records evidencing those details if requested by the Government. When the Government finds evidence of risk associated with the contractor's sampling process, the Government may witness and evaluate the contractors sampling process. The contractor shall randomly select samples from the production lot(s), unless the contracting officer specifies otherwise in writing. The contractor shall ship the selected PVT samples with a copy of the system of record receiving report (i.e., WAWF, DD Form 250, or commercial shipping document) and the contractor's signed DD Form 1222. The contractor shall prepare the shipping container(s) by marking the external packages in bold letters, Product Verification Test Samples Do Not Post to Stock," Contract Number: contractor insert and Lot/Item Number: contractor insert adjacent to the MIL-STD-129 (latest revision) identification markings. The contractor shall use a hard copy of the system of record receiving report as a packing list, in accordance with DFARS Appendix F. The contractor shall mark the exterior of the shipping container in accordance with MIL-STD- 129 (latest revision), paragraph 5.11. The contractor shall send samples by traceable means (e.g., certified or registered mail, United Parcel Service, Federal Express). The contractor shall include the following in the interior package: (a) Hard copies of the contract; (b) Material certifications/process operation sheets; and (c) Drawings used to manufacture the units and return shipping information. (4) The Government will return samples that pass testing and are not destroyed during evaluation to the contractor at the Government expense for the contractor to include as part of the total contract quantity to be delivered under the contract. The contractor and Government may agree to dispose of samples not destroyed when the cost of the item does not justify the shipping expense. If the Government does not return approved samples that pass testing to the contractor, the Government will consider those samples as part of the contract quantity for payment and delivery. (5) If samples fail testing, the Government may reject the entire contract lot from which the contractor took the samples. The Government may, at its discretion, retain samples that fail testing without obligation to the contractor. *****; E08 First Article Testing Requirements (MAR 2025); E09 Contractor First Article Test (FAT) Information (JUL 2022) (1) For FAT requirements, the Government will conduct inspection at source and acceptance at destination. SECTION E - INSPECTION AND ACCEPTANCE

E08 FIRST ARTICLE TESTING REQUIREMENTS (MAR 2025)

- (1) If there is not a separate contract line item number (CLIN) for FAT, the offeror shall include all costs and risk associated with completion of the FAT requirement in the production CLIN price.
- (2) If there is a separate FAT CLIN, the offeror shall include all costs and risk associated with completion of the FAT requirement in the FAT CLIN price. The unit of issue for the FAT CLIN, EACH, is equal to one First Article Test (1EA=1FAT). To receive payment for any costs associated with FAT, the offeror shall propose costs associated with FAT on a separate CLIN. The offeror shall base the production CLIN price solely on all costs associated with completion of the production units and shall exclude all FAT-related costs.
- (3) The contracting officer will use the total award price in selecting the best value offer from among all eligible offerors. However, for an offeror to be eligible for award, the contracting officer must determine that the FAT CLIN price (unless FAT is waived) and the production CLIN price are fair and reasonable; and, if set-aside under FAR Part 19, a fair market price. The offeror shall not propose a FAT CLIN price that is materially unbalanced in relation to the production CLIN price. In the event an offeror receives a waiver of the FAT requirement, the contracting officer will deduct the FAT CLIN price for the waived source in determining the total award price.
- (4)(a) Notwithstanding the conditions for waiving first article, the contracting officer may order an additional first article sample, or portion thereof, in writing if there is a --
- (i) Major change to the technical data;
 - (ii) Lapse in production for a period in excess of 90 days; or
 - (iii) Change in the place of performance (manufacturing facility), manufacturing process, material used, drawing, specification or source of supply.
- (b) When conditions in paragraphs (4)(a)(i), (ii), or (iii) occur, the contractor shall notify the contracting officer; who will determine whether to order an additional first article sample or portion thereof and provide instructions concerning the submission, inspection, and notification of results. The contractor shall bear the costs of the additional first article testing resulting from any of the causes in paragraphs (4)(a)(i)-(iii) instituted by the contractor and not due to changes directed by the Government.
- (5) Waivers. The offeror may submit a request for FAT waiver to the contracting officer, who may waive the FAT requirement when all of the following criteria apply:
- (a) The offeror requesting waiver has successfully manufactured, delivered and the government accepted the item or a similar item. The offeror shall provide the following information and be prepared to provide documentary evidence upon the contracting officer's request:
 - (i) Contract number(s), date(s), and issuing Government agency or agencies.
 - (ii) Description of item previously furnished, identified by part number, type, model number and/or other identifying information. If the item previously furnished is similar but not identical to the item being acquired under the current buy, the offeror shall explain why manufacture of the item previously furnished is sufficient to demonstrate its ability to manufacture the item being acquired under the current buy without need for a first article test.
 - (iii) Engineering control document/change number of item previously furnished.
 - (b) There have been no changes to manufacturing processes, tooling, or place of performance.
 - (c) There have been no changes to manufacturing data (e.g., drawing revisions that change materials, dimensions, processes, inspection or testing requirements; or subcontractors used to manufacture the items successfully in the past).
 - (d) The offeror shall supply an item of the same design and manufactured by the same method at the same facilities as the item or similar item previously furnished and accepted under subparagraph (5)(a).
- (6) Contractor-Performed FAT.
- (a) The contractor shall test the quantities as outlined in paragraph (a) of FAR clause 52.209-3 as specified in the contract. The contractor shall submit reports in accordance with paragraph (b) of FAR clause 52.209-3, as supplemented in this procurement note.
 - (b) For test report preparation and delivery of contractor FAT, the contractor shall --
 - (i) Use the data item description DI-NDTI-80809B report format.
 - (ii) Mark the test report with the following: "First article test report - Contract number:[] and lot/item number: [NSN: 5985011793802 / CLIN 3].
 - (iii) Sign the FAT Report, accompanied by the system of record receiving report (i.e, WAWF or] DD Form 250) and contractor confirmation that the same process and facilities used to manufacture the first article units will be used to manufacture the production units, to the contracting officer at the applicable address shown below:
 - (A) For awards issued by DLA Aviation; or DLA Troop Support Clothing and Textile (C&T), Medical Materiel, or Subsistence, submit the report to the procuring activity in Block 6 of the DD Form 1155, Block 7 of Standard Form (SF) 33, Block 5 of SF 26, or Block 9 of SF 1449 award.
 - (B) For awards issued by DLA Land (SPE7L), submit the report to the following address:
DLA Land - FLSEB
ATTN: FAT Monitor
P. O. Box 3990
Columbus, OH 43218-399, or email to: Land.FAT.Monitor@dla.mil.

700 Robbins Avenue

Philadelphia, Pennsylvania 19111.

Preferred electronic submissions: Hardware FAT Monitor at DLAHardwareFATMonitor@dla.mil.

(7) The contractor shall --

(a) Provide and maintain an inspection system acceptable to the Government in accordance with FAR Clause 52.246-2 or 52.246-3;

(b) Maintain and make available all records evidencing those details at the Government's request.

(c) At least fourteen (14) calendar days (or as otherwise specified in the contract) prior to shipment to the Government, provide written notice to the contracting officer and to the cognizant DCMA Functional Specialist when full administration or Quality Support administration is delegated to DCMA.

(8) Government-performed FAT. The contractor shall --

(a) For delivery of separately priced Government first article samples for Government performed FAT ship the units and system of record receiving report (i.e., WAWF or DD Form 250) to the test facility specified in paragraph (a) of FAR clause 52.209-4.

(b) For delivery of Government first article samples that are not separately priced, ship the units with a commercial shipping document to the test facility.

(c) Prepare the shipping container(s) by marking the external packages in bold letters, "First Article Exhibits - Do Not Post to Stock," adjacent to the MIL-STD-129 (latest revision) identification markings.

(d) Use a hard copy of the system of record receiving report (i.e., WAWF DD Form 250), or commercial shipping document as a packing list, in accordance with DFARS Appendix F.

(e) Mark the exterior of the shipping container in accordance with MIL-STD-129 (latest revision), paragraph 5.11.

(f) In the interior package, include hard copies of the contract, test reports, material certifications/process operation sheets, drawings used to manufacture the units, and a pre-paid return label or shipping account for payment.

(g) Send units by traceable means (e.g., certified or registered mail, United Parcel Service, Federal Express).

(h) Send an email with subject titled "Notification of Test Exhibits []" to the corresponding address in (i) or (ii) below and to the contracting officer specified in the contract. In the email, provide the shipment date, contract/purchase order number, National Stock Number, means of transportation, tracking number, and summary of container contents. Attach a copy of the system of record receiving report (i.e., WAWF or DD Form 250) documenting the Government has performed the contract quality assurance within the system or record.

(i) DLA Land & Maritime - DSCCPProdVerif@dla.mil

(ii) DLA Aviation - DSCR.Test & EvaluationOffice@dla.mil

(9) At its discretion, the Government may return FAT units to the contractor at no cost to the Government. The contractor shall submit the return address and pre-paid return label or shipping account for payment.

(10) If the Government disapproves or conditionally approves Government-performed FAT units, the Government will take action in accordance with FAR 52.209-4.

E01 SUPPLEMENTAL FIRST ARTICLE EXHIBIT DISPOSITION – CONTRACTOR MAINTAINED (MAY 2020)

E09 CONTRACTOR FIRST ARTICLE TEST (FAT) INFORMATION (JUL 2022)

(1) For FAT requirements, the Government will conduct inspection at source and acceptance at destination. The FOB point is destination. Due to known systems limitations, solicitations may contain erroneous inspection, acceptance, and FOB points. This procurement note takes precedence over any conflicting terms.

(2) CONTRACTOR FAT DELIVERY SCHEDULE

(a) **150** Days: To Deliver FAT Report to the Government

(b) **120** Days: Government FAT Report Evaluation and Notification to Contractor

(c) **122** Days: To Deliver Final Production Quantity After Approval of FAT Report. If PLT applies, this line will be blank; the number of delivery days for final production quantity will appear in procurement note E03, Production Lot Testing - Contractor, or E04, Production Lot Testing - Government, as applicable

(d) **392** Total Delivery Days for FAT (Sum of Paragraphs (2)(a) through (2)(c))

252.232-7006 WIDE AREA WORKFLOW PAYMENT INSTRUCTIONS (PRE-FILLED) (JAN 2023) DFARS

As prescribed in [232.7004](#) (b), use the following clause:

(a) *Definitions.* As used in this clause -

Department of Defense Activity Address Code (DoDAAC) is a six position code that uniquely identifies a unit, activity, or organization.

Document type means the type of payment request or receiving report available for creation in Wide Area WorkFlow (WAWF).

Local processing office (LPO) is the office responsible for payment certification when payment certification is done external to the entitlement system.

Payment request and receiving report are defined in the clause at 252.232-7003, Electronic Submission of Payment Requests and Receiving Reports.

(b) *Electronic invoicing.* The WAWF system provides the method to electronically process vendor payment requests and receiving reports, as authorized by Defense Federal Acquisition Regulation System (DFARS) 252.232-7003, Electronic Submission of Payment Requests and Receiving Reports.

(c) *WAWF access.* To access WAWF, the Contractor shall -

(1) Have a designated electronic business point of contact in the System for Award Management at <https://www.sam.gov> and

(2) Be registered to use WAWF at <https://wawf.eb.mil/> following the step-by-step procedures for self-registration available at this Web site.

(d) *WAWF training.* The Contractor should follow the training instructions of the WAWF Web-Based Training Course and use the Practice Training Site before submitting payment requests through WAWF. Both can be accessed by selecting the "Web Based Training" link on the WAWF home page at <https://>

- (e) *WAWF methods of document submission.* Document submissions may be via Web entry, Electronic Data Interchange, or File Transfer Protocol.
- (f) *WAWF payment instructions.* The Contractor shall use the following information when submitting payment requests and receiving reports in WAWF for this contract or task or delivery order:
- (1) *Document type.* The Contractor shall submit payment requests using the following document type(s):
- (i) For cost-type line items, including labor-hour or time-and-materials, submit a cost voucher.
- (ii) For fixed price line items -
- (A) That require shipment of a deliverable, submit the invoice and receiving report specified by the Contracting Officer.
- (Contracting Officer: Insert applicable invoice and receiving report document type(s) for fixed price line items that require shipment of a deliverable.)

Invoice (stand-alone) and Receiving Report (stand-alone) or Invoice and Receiving Report (combination)

- (B) For services that do not require shipment of a deliverable, submit either the Invoice 2in1, which meets the requirements for the invoice and receiving report, or the applicable invoice and receiving report, as specified by the Contracting Officer.
- (Contracting Officer: Insert either "Invoice 2in1" or the applicable invoice and receiving report document type(s) for fixed price line items for services.)
- (iii) For customary progress payments based on costs incurred, submit a progress payment request.
- (iv) For performance based payments, submit a performance based payment request.
- (v) For commercial financing, submit a commercial financing request.
- (2) Fast Pay requests are only permitted when Federal Acquisition Regulation (FAR) 52.213-1 is included in the contract.
- [Note: The Contractor may use a WAWF "combo" document type to create some combinations of invoice and receiving report in one step.]
- (3) *Document routing.* The Contractor shall use the information in the Routing Data Table below only to fill in applicable fields in WAWF when creating payment requests and receiving reports in the system.

Routing Data Table *

SECTION I - CONTRACT CLAUSES

52.209-3 FIRST ARTICLE APPROVAL -- CONTRACTOR TESTING (DEVIATION 2026-O0038) (FEB 2026) FAR

As prescribed in 9.308-1(a) and (b), insert the following clause:

[Contracting Officer inserts details]

(a) The Contractor shall test **3** unit(s) of Lot/Item **NSN: 5985011793802 / CLIN 3** as specified in this contract. At least **14** calendar days before the beginning of first article tests, the Contractor shall notify the Contracting Officer, in writing, of the time and location of the testing so that the Government may witness the tests.

(b) The Contractor shall submit the first article test report within **150** calendar days from the date of this contract to **DLA MARITIME - FMSE ATTN: FAT Monitor P.O.Box 3990 Columbus, OH 43218-3990 Or email: maritime.fat.monitor@dla.mil** [insert address of the Government activity to receive the report] marked "FIRST ARTICLE TEST REPORT: Contract No. , Lot/Item No. ." Within **120** calendar days after the Government receives the test report, the Contracting Officer will notify the Contractor, in writing, of the conditional approval, approval, or disapproval of the first article. The notice of conditional approval or approval shall not relieve the Contractor from complying with all requirements of the specifications and all other terms and conditions of this contract. A notice of conditional approval will state any further action required of the Contractor. A notice of disapproval will cite reasons for the disapproval.

(c) If the first article is disapproved, the Contractor, upon Government request, shall repeat any or all first article tests. After each request for additional tests, the Contractor shall make any necessary changes, modifications, or repairs to the first article or select another first article for testing. All costs related to these tests are to be borne by the Contractor, including any and all costs for additional tests following a disapproval. The Contractor shall then conduct the tests and deliver another report to the Government under the terms and conditions and within the time specified by the Government. The Government will take action on this report within the time specified in paragraph (b) above. The Government reserves the right to require an equitable adjustment of the contract price for any extension of the delivery schedule, or for any additional costs to the Government related to these tests.

(d) If the Contractor fails to deliver any first article report on time, or the Contracting Officer disapproves any first article, the Contractor shall be deemed to have failed to make delivery within the meaning of the Default clause of this contract.

(e) Unless otherwise provided in the contract, and if the approved first article is not consumed or destroyed in testing, the Contractor may deliver the approved first article as part of the contract quantity if it meets all contract requirements for acceptance.

(f) If the Government does not act within the time specified in paragraph (b) or (c) above, the Contracting Officer will, upon timely written request from the Contractor, equitably adjust under the Changes clause of this contract the delivery or performance dates and/or the contract price, and any other contractual term affected by the delay.

(g) Before first article approval, the acquisition of materials or components for, or the commencement of production of, the balance of the contract quantity is at the sole risk of the Contractor. Before first article approval, the costs thereof shall not be allocable to this contract for (1) progress payments, or (2) termination settlements if the contract is terminated for the convenience of the Government.

(h) The Government may waive the requirement for first article approval test where supplies identical or similar to those called for in the schedule have been previously furnished by the offeror/contractor and have been accepted by the Government. The offeror/contractor may request a waiver.
